

A group of friends, spending the weekend in an isolated country house, are attacked by a swarm of killer mosquitos that feast on human flesh like piranhas. They soon find out that the only deterrent against these insects is THC, the main active ingredient in Cannabis. Their only hope to survive is to confront them when stoned. With all the possible consequences...

Abel Ferrara's Piazza Vittorio

Piazza Vittorio is in the heart of Esquilino district in Rome, it was once an area where wealthy families were used to live, while now is one of the most important place of multicultural aggregation of the Center of the Italian Capital. The neighborhood has been renamed chinatown, due to the high density of Chinese shops and restaurants. This area arouse a mysterious charm on Roman citizens and tourists and draw the attention of Abel Ferrara, who strongly wanted to make this documentary. Besides the interviews to people of diverse ethnicities, the documentary features interviews to Matteo Garrone, Willem Dafoe and many more.
